Visual Basic

Username and Password

```vb
Dim user As String = TextBox1.Text
        Dim pass As String = TextBox2.Text

        If user = "jimale" And pass = "123" Then
            form2.show()
        Else
            MsgBox ("your user name and password are incorrect ")
        End If
```

Open Notepad

```vb
Dim read As StreamReader
        Dim rs As DialogResult
        OpenFileDialog1.Title = "open"
        OpenFileDialog1.InitialDirectory = "G:"
        OpenFileDialog1.Filter = "txtfile|*.txt|word files|*docx|pdf file|*pdf"
        rs = OpenFileDialog1.ShowDialog
        If rs = Windows.Forms.DialogResult.OK Then
        End If
        read = New StreamReader (OpenFileDialog1.FileName)
        TextBox1.Text = read.ReadToEnd ()
        read.Close ()
```

Copy

```vb
textbox1.copy ()
```

Cut

```vb
TextBox1.Cut ()
```

Undo

```vb
TextBox1.ClearUndo ()
```

Font

```vb
If CheckBox1.Checked Then
            Form1.TextBox1.Font = New Font (Form1.TextBox1.Text, FontStyle.Bold)
        End If
        If CheckBox2.Checked Then
            Form1.TextBox1.Font = New Font (Form1.TextBox1.Text, FontStyle.Italic)
        End If
        If CheckBox3.Checked Then
            Form1.TextBox1.Font = New Font (Form1.TextBox1.Text, FontStyle.Underline)
        End If
```

Save

```vb
Dim wr As StreamWriter
        Dim rs As DialogResult
        rs = SaveFileDialog1.ShowDialog
        If rs = Windows.Forms.DialogResult.OK Then
            wr = New StreamWriter(SaveFileDialog1.FileName, False)
            wr.Write(TextBox1.Text)
            wr.close()
        End If
```
